CORNISH & COOPER, BUILDERS AND CONTRACTORS, All Jobbing Work Promptly Attended to. VANCOUVER, B. C.

VANCOUVER.

In 1891, on the 5th day of April, it is recorded in the decennial census records of the Dominion of Canada that Vancouver had a population of 13,800. As no official count has been made since, the population at the close of 1893 may be put down as approximating 15,000. In western cities more especially it is a unsafe to depart too far from official statements, as then the imagination has room for lively play, and directories, if reliable, have little to do with the imaginative. Fifteen thousand is the product of seven years' growth, which in any event, should satisfy those who prophesied, and still prophesy, great things of the Terminal City; and if the record be maintained uniuntil the present census decade is completed, there will still have been but little cause for dissatisfaction, as compared with anticipated progress.

Vancouver is called the Terminal City for an obvious reason. As the last station westward, on the largest direct line of railway on the American continent, or in the world for that matter, it merits the title; and as the eastern and northern terminus of two great trans-oceanic steamship lines it is trebly entitled to the designation. It might have been dubbed the City of Destiny with much more significance than its Sound sister, Tacoma, but titles are not always significant.

So much has been said of the situation, growth and prospects of Vancouver that the "endless repetition" may be minimised in this description to its narrowest limits.

Briefly, Vancouver, is situated at the western end of Burrard Inlet, a deep, land-locked arm of the sea, eleven miles in length, with an average width of about two miles, constituting the inlet in question a magnificent harbor, and enabling it to rank with the great harbors of commerce. The Narrows, where the promontory of Brockton Point approaches the land of the opposite shore, and through which at lowest tide the largest ocean vessels pass easily and securely, connects it with the straits beyond. More than one ship has sailed in and out through these Narrows without the aid of pilot or steam tug, so that their navigation cannot be said to be either difficult or dangerous. Besides being commodious enough to allow the whole British fleet to ride at anchor, there is sufficient water all around its shores to dock the biggest ship of which it boasts.

Taking the older land marks by which to more easily localize the city, Vancouver is 75 miles from Victoria, north-easterly, 35 miles from Nanaimo, easterly, and 12 miles from Westminster, northerly.

The site of Vancouver is remarkable for several things: Its beauty, its easy gradients and facilities for drainage and its natural adaptation for the growth of a city of metropolitan proportions. The main portion is peninsular in character, False Creek, a tidal arm of English Bay paralleling Burrard Inlet near the eastern boundary of the city limits and dividing it from Fairview and Mt. Pleasant, more elevated and suburban portions. The western knob of this peninsula is a military reserve, about 1000 acres in extent, and comprising the far famed Stanley Park. This reserve has been leased to the city for park purposes, for the

DIRECTORY LIBRARY.

The want of a ***DIRECTORY LIBRARY*** is one which has been keenly felt by the business men of this Province. British Columbia's trade with almost every quarter of the world is rapidly growing, and it is of the utmost importance that our merchants should be in a position to obtain the addresses of reliable firms abroad. Such a library is now available to the public. A small charge is made for consulting any of the following, among other directories now at our office.

COAL

THE

New Vancouver Coal Mining and Land Co.

LIMITED.

(FORMERLY THE VANCOUVER COAL COMPANY)

ARE THE LARGEST COAL PRODUCERS ON THE PACIFIC COAST.

NANAIMO COAL
Famous Gas and House Coal.

NEW WELLINGTON COAL
Favorite House and Steam Fuel.

SOUTHFIELD COAL
Steam Fuel.

THESE COALS ARE MINED BY THIS COMPANY ONLY, AND BY UNION LABOR.

THE NANAIMO COAL gives a large percentage of gas, a high illuminating power, unequalled by any other bituminous gas coals in the world, and a superior quality of coke.

THE SOUTHFIELD COAL is now used by all the leading steamship lines on the Pacific.

THE NEW WELLINGTON COAL is the favorite fuel for domestic purposes. It is a clean, hard coal, makes a bright and cheerful fire, and its lasting qualities make it the most economical fuel in the market.

The several mines of the Company are connected with their wharves at Nanaimo and Departure Bay, where ships of the largest tonnage are loaded at all stages of the tide. Special despatch is given to mail and ocean steamers.

PULVERIZERS, CRUSHERS & BALL MILLS

The Raymond Independent Ball Mill is the most practicable Ball Mill ever built for the reduction of Gold and Silver Ores, Portland cement, Phosphate rock and all hard refractory materials to any degree of fineness.

A Few Reasons why it is the BEST.

1st. It is the only ball Mill ever built having a uniform crushing and driving force applied to the balls independent of each other.

2nd. With the sectional Driving Bed the greater the speed the greater the crushing and driving force. This is a valuable feature and one that no other ball mill possesses.

3rd. It can be run wet or dry also with air separation. Capacity one to four tons per hour.

4th. It has a direct rolling motion and the balls are self adjusting, therefore has less points of friction than any other ball mill ever built.

5th. The sectional driving bed allows the balls indendent adjustment to uneven surface as if caused by running over large pieces of ore, and they act independently of each other.

6th. With the sectional driving bed each ball is driven, therefore the ball in contact does not drive the ball ahead of it, as is the case in all other ball mills.

7th. It has a greater crushing force than other ball mills, therefore has a greater capacity.

8th. The mill is arranged to prepare the material for either amalgamation or concentration.

9th. The wearing parts are inexpensive and easily replaced, as the mill can be opened quickly.

M. ROBINSON MERCHANT TAILOR
620 Hastings Street, West, Vancouver, B. C.

proverbial term of 99, or it may be 999 years at a nominal rental, and with the exception of a beautiful driveway around it, costing about $35,000 and paved for several miles with clam shells, and a number of bridle paths and shady bowers, is still in a state of nature, affording as it does, one of the best living illustrations of the genuine, primeval British Columbia forest to be found in the Province. One of the invariable attractions to the visitor is the big trees of the Park. About ten acres of the point nearest to the city have been converted into recreation grounds, which are leased to and under the management of the Brockton Point Amateur Athletic Association under whose auspices athletic contests and field sports—cricket, football, lacrosse, bicycling, etc.—are conducted at frequent intervals. Stanley Park was named after Lord Stanley, now the Earl of Derby, and the rustic arch standing at the entrance of the bridge leading to the Park lodge was erected in his honor on the occasion of His Excellency's official visit to British Columbia.

There is another park reservation at the east end adjoining the city limits where a race track has been made, and where the British Columbia Jockey Club Association holds semi-yearly meets. There is also the Clark Park at the south-western extremity of the city, consisting of 7½ acres. The parks described in the foregoing with the bathing grounds on English Bay, where a number of summer cottages have been built; the grounds at Jericho on the opposite shore of English bay, the north arm of Burrard Inlet, a beautiful stretch of some miles inland; Hastings, a pleasant summering spot; Barnet, several miles further east; Capilano and Seymour valleys in North Vancouver and the islands of Howe Sound are among the principal immediate pleasure resorts of Vancouver citizens, and these will increase in pleasure and interest as the years roll on. The inlet itself affords unrivalled boating facilities. Vancouver holds the acquatic championship of the coast.

The Vancouver Electric Lighting and Tramway Co., which controls the car and electric light services of the city, has put down 7½ miles of track on the leading avenues, making a complete circuit of the city. The electric light portion of the company's operations supplies 136 arc lights and 2,900 incandescent lights. Cost of road and equipments was $420,000.

The system of public works carried out by Vancouver is one of the most remarkable and complete on the Pacific Coast. The city has now excellent sewerage, waterworks and streets extending to all its inhabited parts. To epitomize, it has:

70 miles of streets opened, costing	$ 260,000
11 miles of gravelled streets costing	20,000
6 miles of macadam, costing	70 000
1 mile of bituminous rock pavement, costing	100,000
65 miles of sidewalk, costing	16,000
25 miles of sewers, costing	200,000
35 miles of water service, costing	700,000
5 bridges, costing	30,000
School buildings, costing	150,000

The total value of school premises is $295,000; tax receipts amount to $290,500; other receipts $119,000; total $409,500.

In round numbers the value of buildings and improvements, irrespective of municipal, Provincial or Dominion property, is assessed at $4,000,000; assessments on land, $16,000,000.

The debenture debt is $1,926,450, in which are included $111,100 on the local improvement plan, $692,212 for water works, and $136,000 for schools.

The value of public buildings not heretofore enumerated — Municipal and Government—is estimated at $250,000, and churches at $175,000.

Capilano River, with a dam six miles up the valley, is the source of water supply for the city, and the water is the purest in the world. The revenue from the water works system, which is owned by the citizens, is about $45,000 for the year.

TEXAS LAKE ICE CO VANCOUVER B C

There are 2,288 water services, and 150 fire hydrants.

Vancouver has gas works as well as electric light service, a telephone system and a district telegraph and messenger service.

Turning to trade and commerce, we find that Vancouver has made progress quite as remarkable as that indicated in foregoing.

Her exports for the fiscal year ending June 30, 1893, were as follows:

Products of the mines		$ 11,964
"	" fisheries	33,396
"	" forests	383,304
"	" animals	21,816
"	" agriculture	7,756
"	" manufactures	105,733
"	" miscellaneous	131,873
Total		$695,842

Value of imports for the same year were:

Free	$ 316,388 00
Dutiable	864,434 00
Total	$1,180,822 00
Duty	280,313 53

Last year (1892) 44 sailing ships loaded in Burrard Inlet taking away a cargo of, roundly, 40,000.000 feet of lumber, valued at $400,000. At the time of writing, the returns of 1893 for 10 months give exactly a similar number of ships loading as for the 12 months of last year, the average cargo being about the same, so that there will be considerable increase in the foreign export by ship over 1892.

The tonnage of the coasting trade for the year ending July 1st, 1893, was outwards 678,873 tons for 2,240 vessels. The total tonnage inwards of 278 British and foreign vessels was 288,300 tons.

Inland revenue collections for 1892-93 reported were as follows:

Spirits	$52,458 94
Malt	11,622 85
Tobacco	25,005 74
Cigars	6,083 20
Licenses	1,125 00
Petroleum	1,961 00
Other receipts	247 08
Total	$98,463 81

The railway situation, in so far as it relates to Vancouver, is an interesting one. Of course, the C.P.R. Co. is the chief element in this respect. This Company has further decided to build a railway to and through Lulu Island to a point opposite Ladner's Landing, from Vancouver.

Last year the citizens voted a bonus of $300,000 to the Burrard Inlet and Fraser Valley Railway Co., to build a line, practically an extension of the Northern Pacific Railway, from Sumas, at the American boundary, to Vancouver. Owing to the financial stringency, which has seriously affected the standing of the Northern Pacific Railway for the time being, the enterprise has been delayed, but recent assurances are to the effect that work will proceed without much further delay. Westminster city gave a bonus of $250,000, and the Provincial Government guaranteed the interest for seven years on the same for the construction of a bridge across the Fraser from a point just opposite to a point within the Westminster city limits. Over this, which is to be a union traffic bridge, are to come the Northern Pacific and Great Northern trains (now running to South Westminster).

In discussing the railway situation, it is impossible to overlook the influence of the Westminster and Vancouver Electric Tramway, whereby two cities, twelve miles apart, have been bound together, and an hourly service each way for about fourteen hours a day firmly est. blished. There are sixteen and a half miles of track built, of which two and three quarter miles are within the limits of Westminster city and three miles within Vancouver.

Closely related to railway communication is that of steamship lines. Of this, so far as Vancouver is concerned, it is needless to say much of its geographical position, in relation thereto being long ago generally admitted. The line of Empresses to China and Japan is thoroughly established and the steamers make regular trips, heavily freighted each way.

More recently a line to Australia has been inaugurated and with unex-

A. M. BEATTIE WEEKLY AUCTIONS
CITY MARKET, VANCOUVER, B. C.

C. F. FOREMAN, The CHEAP GROCER
VANCOUVER, B. C.

pected success, and every indication points to permanency and increased patronage.

All now wanting to complete that wonderful system of communication, of which the C. P. R. forms the base and essential land link, are a Pacific cable on one side, connecting Vancouver and the Orient and Vancouver and the Australasia Archipelago, and a fast Atlantic line of steamships. Both are certain as the morrow.

Locally and coastwise, Vancouver has direct and regular communication by steamship with Victoria (daily), Nanaimo (daily), Portland (semi-monthly), San Francisco (weekly), and all up and down the coast at frequent but irregular intervals. There is a ferry service operating between Vancouver and Moodyville, a point just opposite on Burrard Inlet, where extensive lumber mills are operated. Vancouver's fleet is growing rapidly and is already of respectable magnitude.

Burrard Inlet is a concentrating point for the lumber interests of the B.C. coast, at least has been up to the present. The sawmills around its shores have a capacity of about 700,000 daily or 210,000,000 feet per annum.

Industrially, outside of lumbering interests, the Terminal City has done exceedingly well. It now boasts of a sugar refinery, extensive iron works, cement works, car shops, cooperage and jute works, and a number of lesser industries.

Vancouver is well built, well watered, well drained, and well lighted. It has a mile of bituminous rock pavement on its main streets with the intention of still further extension.

Though not an old city by any means, Vancouver is noted for her fine and substantial buildings. The churches make a most creditable display both in numbers and appearance. There are two social clubs, splendid public schools, a beautiful opera house, and all the fraternal, national and athletic associations peculiar to large cities. Socially, Vancouver is in every way a desirable place of residence, and in point of the enforcement of public order it is exemplary in relation to the cities of the coast. As to climate, it very much resembles the rest of the coast. Compared with Victoria, for instance, the precipitation is much greater, but the number of days upon which rain falls does not materially differ, while Vancouver is less exposed to winds.

Altogether Vancouver has not only attained to a respectable status as a city, with some exceptional features of merit, but it is generally conceded to have prospects equal to any other city on the Pacific Coast. Its future depends largely upon the exertions of the people themselves, and upon the development of conditions deeply affecting the destinies of Vancouver, British Columbia, the Dominion of Canada, and the British empire itself.

Vancouver City Council, 1893.

The City Council is composed of ten Aldermen, presided over by the Mayor. Election annually. Mayor, F. Cope. Alderman: (Ward I.) W. F. Salsbury, R. A. Anderson; (Ward II.) H. Collins, J. W. Hackett; (Ward III.) Wm. Cargill, H. P. McCraney; (Ward IV.) J. L. Franklin, George Hobson; (Ward V.) Wm. Towler, C. L. Brown.

PARK COMMISSIONERS—R. G. Tatlow, Phillip Fewster and C. G. Hobson.

LICENSE COMMISSIONERS—F. Cope, Mayor; G. I. Wilson, S. Crowder, H. McDowell, and A. E. Shelton.

VANCOUVER CITY STREET DIRECTORY.

(For Householders, see Alphabetical List.)

CITY LIMITS.

Commencing at the eastern boundary of district lot 184, running westerly along the shore of Burrard Inlet and English Bay to a point in district lot 540. Thence easterly along the southern boundary of district 540 to the eastern boundary of district lot 264A; thence northerly along the eastern boundary of 264A and 184 to the point of commencement.

FIRE LIMITS.

Commencing at the intersection of a line drawn parallel to Columbia avenue, at a distance of 120 feet therefrom, on the east side with the shore of Burrard Inlet; thence south along the said line, which is distant 120 feet east from and parallel with Columbia avenue aforesaid, to its intersection with a line 120 feet south of Dupont street; thence westerly along a line 120 feet south of Dupont street to a point 120 feet west of Carrall street; thence westerly in a direct line to a point on Beatty street, 120 feet south of Pender street, between Pender and Dunsmuir streets; thence westerly, parallel to Pender and Dunsmuir streets with the centre of the lane running between Seymour and Granville streets; thence southerly along the centre of the said lane to its intersection with the centre of Robson street; thence westerly along the centre of Robson street to its intersection with the lane running between Granville and Howe streets; thence northerly along the centre of the said lane to its intersection with the centre of the lane running between Dunsmuir and Pender streets in block 32, subdivision 541; thence westerly along the centre of the said lane to its intersection with the centre of Howe street; thence northerly along the centre of Howe street to a point opposite the lane in block 15, subdivision 541; thence easterly along the centre of said lane to a point opposite the eastern boundary of lots 13 and 14 in block 15, sub-division 541; thence northerly along the eastern boundary of said lots to a point at low water mark; thence easterly at low water mark on the south shore of Burrard Inlet to the point of commencement.

DIRECTORY LIBRARY.

The want of a *DIRECTORY LIBRARY* is one which has been keenly felt by the business men of this Province. British Columbia's trade with almost every quarter of the world is rapidly growing, and it is of the utmost importance that our merchants should be in a position to obtain the addresses of reliable firms abroad. Such a library is now available to the public. A small charge is made for consulting any of the following, among other directories now at our office.

538 COLUMBIA STREET, NEW WESTMINSTER, B. C.

NEW WESTMINSTER.

NEW WESTMINSTER is well called the Royal City. Those who are responsible for the nomenclature were sanguine that the name was not too pretentious, realizing, as they did, the unlimited resources of the district in which their fair city was cradled. And that their expectations have so far been justified, no one who has watched the growth of New Westminster will dispute. Within the past dozen years what was then little better than a hamlet has grown into a city, the population of which, according to last official census, was 6,641. This figure has increased considerably since that date, and is every year being still further swelled. There is ever a large floating population in New Westminster, the surrounding country being well settled, and trade is brisk, though of a fluctuating character. For instance, when the canneries are in full swing, during the fishing season, an immense business is done. Mining operations, when active, also affect the Royal City beneficially; but her permanent and ever increasing industries, chief among which are lumber and milling, are those which are mainly depended upon.

New Westminster is charmingly situated on the north bank of the Fraser river, fifteen miles from the mouth, and is the headquarters of the salmon canning industry. The Fraser is the most important river in British Columbia. Not alone is it navigable for a very considerable distance, but it flows through one of the richest agricultural, timber and mining districts in the country. A large fleet of steamers do a lively business on the river, making regular communication with all important points, and also keeping up a steady service with Vancouver, Victoria, Nanaimo, Portland, etc. It is the fresh water terminus of the Canadian Pacific Railway, and the western terminus of the Great Northern. With the latter system it is connected by the New Westminster Southern (a road which owes its existence to the energy and enterprise of the citizens), thus affording direct railway communication with Seattle, Tacoma, Portland, San Francisco, and the whole American railway system east and south. An electric tramway connects New Westminster with Vancouver, the twelve miles intervening being accomplished in less than an hour. The line is energetically worked, and will no doubt be considerably enlarged as increased traffic warrants the extension. With that liberality characteristic of the people they have handsomely bonused an enterprise for spanniug the Fraser, opposite the city, by means of a substantial union traffic bridge. The citizens have voted a sum of $250,000 for this object, and the Provincial Government have guaranteed the interest on same for seven years, so that work will be pressed forward without delay. Over this bridge will run the Northern Pacific and Great Northern trains, and this will more than ever make the Royal City the great commercial centre which she aspires to be.

New Westminster enjoys an excellent and abundant supply of water—ample for domestic, commercial and fire protection purposes. The source of supply is Coquitlam Lake, distant about twelve miles, and as this great sheet of water is at an altitude of some 435 feet, the gravitation system

is used in conveying the precious liquid. The works, costing in the neighborhood of $500,000, are the property of the city, and prove a valuable asset.

A capital sewerage system and efficient sanitary inspection tend to make Westminster an exceptionally healthy quarter, while its public men are ever alive to the interests of the city, and are indefatigable in their exertions to promote its welfare. The buildings, public and private, are such as would be a credit to any community—indeed the casual observer has been heard to hint that this particular feature has been overdone. But those who make the place their home, those who have a substantial stake in the place, know better, and the willingness with which they invest their hard cash is an undoubted proof of their faith in the stability of the city of the Fraser. The streets are well kept, well drained and well lighted, all being done with a thoroughness and economy highly creditable to the city fathers. Being easy of access from all parts of the province, New Westminster has been selected as the site for many of the more important provincial institutions. including the Penitentiary, Lunatic Asylum, Central Prison, Court House, etc. The Public Library is a fine building, and is as liberally patronized as it is well stocked with literature. It is lighted throughout by electricity, as are also all the more important buildings. Westminster is also a cathedral city. All the religious denominations are well represented, as are the various fraternal and benevoleat societies. There are three fire halls well equipped with modern appliances, and in charge of Chief T. Ackerman, and an efficient brigade.

Westminster City Council and Officers, 1893.

The election of Mayor and ten aldermen takes place annually, on the first Monday in December. The council meets once a week at the City Hall for the dispatch of business. The board is composed as follows:

MAYOR:—D. S. Curtis.

ALDERMEN:—Ward 1, Jos. Jagger and Jas. Cunningham; Ward 2, A. M. Herring and Thos. Owens; Ward 3, Thomas R. Pearson and Wm. A. Duncan; Ward 4, Thos. Gifford and Jas. Lord; Ward 5, Wm. H. Keary and Geo. Mackenzie.

OFFICERS:—City Clerk and Collector, D Robson; Treasurer and Assessment Commissioner, W. T. Cooksley; City Engineer, Wm Noot; City Solicitors, Corbould, McColl, Wilson & Campbell; Auditor, C. G. Major; Police Magistrate, T. C. Atkinson; Chief Officer, William Huston; Sergent, John Carty; Lock-up keeper, A. G. Smith. There are also seven police constables.

WATERWORKS:— Engineer, A. E. Hill, C.E.; Commissioners, J. C. Armstrong, W. A. Duncan and Geo. Turner, C.E. Source of supply, Coquitlam Lake, distant fourteen miles.

FIRE DEPARTMENT:—Chief, T. Ackerman. There are three fire halls, No. 1 on Columbia street opposite Lytton Square; No. 2 on Royal avenue, near Sixth street; No. 3 on Front street at foot of Begbie street.

Board of Trade.

President, T. J. Trapp; Vice-President, John Wilson; Secretary-Treasurer, D. Robson. Council: C. E. Woods, E. A. Wyld, C. G. Major, W. H. Keary, John Reid, D. J. Munn, W. A. Duncan, D. S. Curtis; Secretary, D. Robson.

Libraries.

PUBLIC LIBRARY AND READING ROOM, Columbia street, near Postoffice, free.

Clubs.

WESTMINSTER CLUB.—Columbia st. President, G.D. Brymner; Vice-President, A. J. McColl; Secretary, J. S. C. Fraser.

Transportation.

RAILWAY.—Canadian Pacific Railway to Vancouver, (distance 25 miles) three times daily, calling at and making connection with the eastern and western express trains at Westminster Junction, nine miles; the Southern Railway and the Westminster and Vancouver Electric Tramway.

STEAMER.—The Canadian Pacific Navigation Compy's steamers ply triweekly to Victoria and way ports; also to Hope and Chilliwack. There is regular fortnightly service from Stanley docks; semi-weekly to Nanaimo, Vancouver, Comox, etc.; daily between city and Ladner's; a ferry service to South Westminster (Surrey) hourly; and to all important points.

THE WESTMINSTER AND VANCOUVER TRAMWAY COMPANY, LIMITED.—The New Westminster-Vancouver Tramway which connects New Westminster and Vancouver, gives an hourly service, and is one of the best equipped electric lines in the country. The company was incorporated in the year 1890, with a capital stock of $1,000,000. Work was begun in the same year, and completed in August, 1891. Since the time the road was opened to traffic it has been most liberally patronised, the public

fully appreciating the excellent, safe and speedy service provided. The line is fitted up with 40 pound steel "T" rails, and is splendidly ballasted throughout. The cars travelling at a high rate of speed glide over the good and even road bed with very little oscillation, which is a source of great comfort and pleasure to travelers, not often found on an electric road. The power house is situate about three miles from Westminster, on the way to Vancouver, and is at present equipped with four bi-polar dynamos, two of 200 horse-power capacity, and two of 150 horse-power, besides all the other necessary equipments for the running of a first-class system. The company have ten cars in use. Six of these are large and comfortable, being especially provided with double trucks for the through service, four have 50 horse-power electrical equipment, and three, including the baggage car, have 60 horse-power motors. There are seventeen miles of road in operation. During the past year the company have completed a short line extension of about three miles between New Westminster and the power house, whereby the distance to Vancouver is reduced by three miles. A still further extension of the electric tramway to connect these cities with the magnificent farming lands of Lulu Island, is projected, and will materialize in the near future. The officers of the company are: President, D. Oppenheimer; Vice-president, B. Douglas; Secretary-Treasurer, P. N. Smith; Traffic Manager, G. F. Gibson.

NEW WESTMINSTER STREET DIRECTORY.

(For Householders, see Alphabetical List.)

CITY LIMITS.

Commencing at a point on the right bank of the north arm of the Fraser River, the south-west boundary of suburban block nine; thence north-westerly along the centre of the street which forms the westerly boundary of suburban blocks nine and twelve to the centre of the street which forms the northern boundary of suburban lot twelve; thence in a north-easterly direction along the centre of the street which forms the northerly boundary of suburban blocks twelve, fourteen and four, and its production to its intersection with the Brunette River; thence in a southerly direction, following the right bank of the Brunette River, to a point of suburban lot 7, block 8, would intersect the said right bank of the Brunette River; thence in a southerly direction and the easterly boundary of the said lot 7, block 8, to the right bank of the Fraser River; thence southerly along a prolongation of said easterly boundary of said lot 7, block 8, to a point 350 feet below high water mark; thence, following a line parallel to the above lines of said right bank of Fraser River, to a point 350 feet below high water mark, and on the production southerly of the centre of the street forming the westerly boundary of suburban lots nine and twelve; thence, in a north-westerly direction to place of beginning. Also all that other piece or tract of land as follows:—Beginning at a point at which the west line of lot 4, group 2, New Westminster District, produced northwardly, intersects the southern boundary of the city, and thence southwardly along the said west line of lot 4 produced, and the said west line of lot 4, distant three chains from the southern shore of the Fraser River; thence eastwardly and at right angles to the said west line of lot 4, thirty chains, more or less, to a point on the east line of lot 2, group 2; thence northwardly along the east line of lot 2 to the southern shore of the Fraser River; thence westwardly along the said shore line of the Fraser river to a point on the west line of lot two; thence northwardly along the west line of the said lot 2 and the west line of the said lot 2 produced, thirty-three chains, more or less, to intersection of the southern boundary of the city; thence westwardly along the southern boundary of the city to the place of beginning. Also the eastern end of Lulu Island, known as a Government reserve, and the island known as Poplar Island.

FIRE LIMITS.

Commencing on Columbia street at a point where the easterly boundary on Blackwood street produced, intersects the southerly boundary of Columbia street; thence southerly at right angles to the said southerly boundary of Columbia street to Front street; thence westerly along said street to McNeeley street; thence northerly along McNeely street to Carnarvon street; thence easterly along Carnarvon street to Sixth street; thence southerly along Sixth street to Clarkson street; thence easterly along Fourth street to Columbia street; thence easterly along Columbia street to the point of commencement.

Dominion Census Returns, 1891.

The following is an abstract of the result of the population of Canada, by Provinces, from a summary of the census of Canada, laid before Parliament:

Nova Scotia	450,523
New Brunswick	321,294
Prince Edward Island	109,088
Quebec	1,488,586
Ontario	2,112,989
Manitoba	154,442
Assiniboine, Saskatchewan and Alberta	61,487
British Columbia	**92,767**
Unorganized	32,169
Total population	4,823,345

The population of the leading cities of British Columbia, is given as follows:

*Victoria	16,849
Vancouver	13,685
New Westminster	6,641
Nanaimo	4,595

The population of the five British Columbia Dominion Electoral Districts is as follows:

Westminster	34,000
Victoria	18,533
Vancouver	18,229
Yale	12.000
Cariboo	10,000

Civic Census taken October, 1891,* **23,153.

The Seal Fisheries.

During the past year fifty-four schooners cleared from Victoria for the hunting grounds, and secured the largest catch in the history of the industry, viz., 69,741 skins. The catch is made up as follows:

B.C. coast	26,578
Japan coast	29,107
Russian side	11,955
Indian catch (canoe)	2,101
	69,741

The number of hands employed was 1,238; of these 432 were Indian hunters. The result of the Behring Sea arbitration is not at all favorably received by the sealers, who claim that it will materially lessen the catch without affording that protection which the arbitrators claim for it. Nor has the price realized for the skins in the London market, this season, been satisfactory. On the whole, there is reason to believe that the industry has received a severe check, and sealers are feeling gloomy as to the future of the business. Some of them have determined to make Japan their winter quarters, Should their example be followed by the others in the trade, it will mean a loss to Victoria of several hundred thousand dollars a year.

Borrowing and Worrying.

"He who goes a borrowing, goes a sorrowing," is a trite old saying, but it does not appear to apply to that numerous class of tormentors who are constantly borrowing Directories. The price of WILLIAMS' B. C. OFFICIAL DIRECTORY places it within easy reach of every business man, so that there is no excuse for persecuting bona fide subscribers. The persistent borrower—who is also the persistent "kicker"—borrows the directory for "a few minutes." These few minutes invariably mean a few hours or a few days, and would extend over a few weeks or a few months, if the book were not recalled. They are not strangers, to whom every directory in circulation would be freely opened, but permanent residents and so-called *business* men. To such an extent has this borrowing practice grown that merchants who do not care to say no to the intruder, are frequently obliged to keep an extra copy for the especial use of this class.

To avoid all this trouble we will allow parties to consult the director at our office free of charge, but will not allow the book to be carried away. Subscribers will please note this, and act accordingly when the borrower calls.

M. ROBINSON MERCHANT TAILOR
620 Hastings Street, West, Vancouver, B. C.

DOMINION CENSUS RETURNS.

The revised official census gives British Columbia a population of ***110,112.***
